The funeral will occur at 10:30 o'clock tomorrow morning, the interment being in Mt. Carmel Cemetery.

PROPERTY OWNERS

Protest and Serve Notice That They Will Not Pay For Brick Streets Unless Finished

The brick street controversy took on a new aspect yesterday when nearly a score of property owners in West Second street served a process on the contractors, Kelley Bros., protesting against the attempted brick street botch and abortion now going down in the West End.

The property owners take the position, and a well-grounded one, too, that unless the brick street is completed entirely across the street, including the section between the street railway tracks, that they cannot legally be assessed the cost of constructing the street.

The point is well taken and when it reaches the Courts, as it is certain to do, the city will find itself in the middle of a bad fix. There has been just a little too much of this lopsided business of late in Mayville and it is quite time to call a halt.

Following is a copy of the notice served—

MAYSVILLE, Ky., August 15th, 1910.
To Kelley Brothers, the City of Mayville and J. M. Walker, City Engineer: You are hereby notified that the undersigned property owners, residing upon and along West Second street, in the City of Mayville, do now protest against the paving of that part of West Second street lying between Wall street and the Western property line of E. P. Browning, in the manner in which said paving is now proposed to be, and is being done; that we protest against the placing of the concrete "headers" in said street, or leaving any part of said street unpaved, or the use of any material, except brick, in the paving of said street.

Formal notice is now served upon the contractors and the city that the undersigned property owners shall decline to hold themselves, or their property, in any way responsible for any portion of the cost of paving West Second street, as same is now proposed to be, and is being done.

WILL GIVE CASH PRIZES OF \$30,000

"SPECIALS" WILL SWELL KENTUCKY STATE FAIR PREMIUM LIST BY MANY THOUSANDS.

PREPARATIONS RAPIDLY PUSHED

Everything Points to Record Breaking Exhibition and Attendance for Big Show of 1910.

With an investment of approximately \$300,000 in buildings and grounds and a record of seven successive annual exhibitions before it, the Kentucky State Fair will begin in Louisville on September 12 and continue throughout the week. The bright promise is given that the turnstiles will click this year on one of the greatest state fairs in America. Hard and unceasing work on the part of the board of managers, the fair officials and employees, for many weeks past is rapidly bringing to completion all plans and arrangements for the exhibition.

While no new buildings have been erected since last year's fair, there will be ample accommodations for exhibitors and visitors. Nature has worked wonders in the beautiful 150 acre plot occupied as a fair site, and the Kentucky show is rapidly gaining distinction as the most beautiful state fair in America. Under the landscape gardener's care the grounds have been adorned with shrubs, new walks and avenues have been laid out, and the trees planted when the site was first selected have grown to shade producing proportions. The system of illumination has been extended so that every nook and corner of the grounds will be brilliantly lighted each night of the show week. Those who have watched the progress of work on this year's exhibition venture the opinion that the attendance, which last year reached high-water mark, will this year be increased by thousands.

Cash prizes aggregating about \$39,000 have been hung up in premiums for the 1910 fair. In many instances the prizes have been increased over former years, and many additional classifications have been made. More attractive than ever will be the "special prizes," which this year will aggregate between five and ten thousand dollars.

Aside from the thousands of dollars received in cash by exhibitors there comes a yet greater prize—the distinction of an award from the Kentucky State Fair. The sentimental and exalting value of such an award has now grown until it is one of the most coveted prizes sought for by those who may be described as professional exhibitors in the country's largest agricultural exhibitions. It is not possible to put an estimate on the prestige and distinction that accompany a prize from the state fair of a commonwealth recognized as the head of the horse world, as one of the foremost live stock states, and as an agricultural community with few superior in the Union.

As heretofore, excursion rates from a territory within a radius of 300 miles of Louisville will prevail throughout the entire fair period. Every local arrangement has been made for the quick and safe handling of the crowds and ample accommodations at reasonable rates are assured to all visitors to Louisville during the state fair week.

THE LEDGER leads in all, and is the favorite paper of the people.

THE PECK WILLIAMSON UNDERFEED FURNACES AND BOILERS

Were living in perfect comfort all over the house. The Underfeed coal burning way—fuel fed from below—all the fire on top—insures as much clean, even heat from cheapest slack as highest priced coal which ordinary heating plants require. This enables Underfeed users to

SAVE 1/2 TO 2/3 OF COAL BILLS

Mr. J. E. Crider, President of the Crider Creamery Company, Fredonia, Ky., relates his Underfeed experience thus:

"We installed one of your No. 739 Underfeed furnaces in our 12-room house about two years ago. We have found the furnace very satisfactory indeed. The furnace is extremely economical, fires easily and the heat is quite evenly distributed throughout the various rooms. We use not and slack coal for fuel with perfect results and much prefer the Underfeed to any heating device with which we are familiar."

Send for our FREE books about UNDERFEED Furnaces and Boilers and let us PROVE that it will pay you to discard old-fashioned heating methods and install the satisfactory dividend-paying Underfeed. Heating plans and services of our Engineering Department all FREE. Write today.

DID THE PROPER THING

After a hearing before a Jury in Judge W. H. Rice's Court yesterday morning, John Bonner, the aged pensioner, was adjudged incompetent of transacting his own business, and M. E. McKellup was appointed Committee to look after his affairs, with W. W. McVaine surety on bond. By order of Judge Rice he was placed in Wilson Hospital, where he will be properly cared for. Bonner is blind, aged and perfectly helpless, and on account of his infirmities he is allowed \$100 per month by the Government, and it is but just and right that the old man should receive proper attention for the few remaining days that are his.

Infantile paralysis has been the cause of at least fifty deaths among children in Washington, D. C., during the last few weeks, and the city has become greatly agitated over it. Upon investigation it was discovered that nearly all of the cases had been those to whom some kind of soothing syrup had been administered. Dr. Keblor of the United States Bureau of Chemistry has stated that after careful examination he has found that at least eighteen of the soothing syrups are deadly in effect, so Uncle Sam will likely wage war upon the manufacturers of this medicine that so many mothers resort to for sick babies.

WHEN HER BACK ACHES.

A Woman Finds All Her Energy and Ambition Slipping Away.

Maysville women know how the aches and pains that come when the kidneys fail, to make life a burden. Backache, hip pains, headaches, dizzy spells, distressing urinary troubles, all tell of sick kidneys and warn you of the stealthy approach of diabetes, dropsy and Bright's disease. Doan's Kidney Pills permanently cure all of these disorders. Here's proof of it in a Maysville woman's words:

Mrs. John Burns of Maysville, Ky., says: "I value Doan's Kidney Pills just as highly today as when I gave a statement for publication in their favor some years ago. I was subject to attacks of kidney trouble and at times the pain in my back was so acute that I was confined to my bed for days. The prompt relief I received from Doan's Kidney Pills, procured at J. J. Wood & Son's Drugstore, was very gratifying, and during the years which have since elapsed, I have had no serious return of kidney trouble. On some occasions, I have felt a slight backache, but a few doses of this valuable remedy have never failed to ward off any bad attack."

BURLEY TOBACCO SALE

Actual Sale at Lexington Scheduled For Today—18 Cents Average Price Asked

Yesterday at Lexington tobacco men by the hundreds gathered to purchase the 120,000,000 pounds of tobacco to be sold by the Burley Pool.

Buyers have the option of buying the entire pool or parts of it, subject to the action of the Committee. A bulk price of eighteen cents was fixed and in the second proposition the Committee priced the crop by grades, the figures being based on an eighteen cent basis.

Eighteen cents means \$21,600,000 for the lot. The actual sales will take place today and buyers are clamorous for the weed.

THREE APPOINTMENTS

THE four Christian Endeavor Societies of Fairbury, Neb., have voted that "a public request be sent to Mrs. NICHOLAS LONGWORTH, asking her to give up the cigarette habit." We would like to take these good young people aside and ask them if they know just what they are doing. Have they any first-hand knowledge of any kind that Mrs. LONGWORTH has "the cigarette habit?" If they have not—as seems probable at odds of 1,000 to 1—are they not running roughshod over the decent American principle that every person shall have a fair trial before being declared guilty of an offense? And are they not also forgetting utterly what the Bible says about "thinking no evil?" We might add as a closing consideration for the older leaders of the Fairbury Endeavorers that, while the good book says nothing about cigarettes, it censures "bustards" six separate and distinct times.—Chicago Evening Post.

"There's only one thing worse [than being busted]," says the Philosopher of Folly, "and that is not having credit."—Cleveland Leader.

For the first time in the history of Newport, R. I., rich and fashionable society women are now smoking cigarettes openly on the streets. Strangers in the social resort were shocked one Sunday afternoon recently when a handsome young matron, ablaze in silks and satins and jewels, calmly strolled down Bellevue avenue smoking a cigarette. In the past cigarette smoking among women was confined to the home and the dining and smoking-rooms of the hotels and clubs.

HOLDING that a man who ran over a boy with an automobile should have been arrested on a charge of "assault with a deadly weapon," Municipal Judge GEMMILL, at Chicago, expressed regret that he could fine G. L. BINDER, a chauffeur, only \$100. OTIS C. HEARD, 12 years old, appeared in Court, speechless and paralyzed as the result of the accident. "There has been an inexcusable mistake on the part of the police in your arrest," said the Judge. "You are charged with plain assault. The maximum fine is \$100. Your offense really is assault with a deadly weapon, carrying a sentence of six months in the Workhouse."

SINCE the Payne law went into effect the customs revenues have been approximately \$1,000,000 for every working day. The monthly average of customs receipts under the Payne law has been double that under the Wilson law, nearly double under that the McKinley

Customs Receipts \$1,000,000 a Day

law, and about \$6,000,000 in excess of the Dingley law receipts. As a producer of revenue the Payne law is so far ahead of all other Tariff acts that an attempt to compare any of them with it is not comparison but contrast. In addition to increasing the average monthly customs receipts over the Dingley law from \$21,676,085 to \$27,529,287, the Payne law has added more than \$2,000,000 a month to the Treasury by means of the Corporation Tax.

PILES BRING DESPAIR

TAKE COURAGE! INTERNAL TREATMENT WILL CURE

Piles make life unhappy and ruin the best disposition. Most sufferers have been bitterly disappointed by many failures to find a cure. A medicine in tablet form, taken internally, that avoids the unpleasant features of ointments, suppositories and operations, and cures thoroughly by removing the inside cause, is surely worth trying, especially as J. Maysville Capitalists Boost Ohio Valley Oil and Gas Company

Ten Thousand Dollars Subscribed, and Work of Boring Test Wells is Now Assured

The officials and others interested in financing the Ohio Valley Oil and Gas Company met in W. Bolton Key's office Monday night, and, after a full discussion of the merits of the concern, a plan was outlined and an agreement entered into whereby the Company is to issue 1,000,000 shares, par value \$1.

Messrs. E. L. Manchester, J. Curtis Raine and others who recently made a trip of inspection to Brookville and Dover reported the most favorable news concerning conditions bearing on the oil situation, and with the facts that the Standard Oil Company has decided to begin boring wells at Bridgeville and other points, and also that oil and gas have been struck in half a dozen places within a twenty-mile radius, confirms the belief and assures the officials that these valuable fluids can be found in paying quantities on the 20,000 acres of leases held by the Ohio Valley Oil and Gas Company.

President John Brown, an oil man of years of experience, claims that this territory embraces the most promising oil section in the United States, and he is so confident of success that he will put in his \$1,500 worth of machinery gratis as an inducement to the Company to sink wells.

Those present at Monday night's meeting represented more than a dozen of Maysville's leading business men and capitalists, which shows that they understand this is a big proposition and one which may develop Mason and Bracken counties into a leading oil and gas producing section of the United States.

This is no gold-brick scheme, but a plain, square-on, home proposition, backed by common sense, the leading business men of Maysville and several counties and the United States Geological Survey, which says the rock formation tends to the belief that great pockets of oil and gas exist in the Ohio Valley above Cincinnati.

THE PUBLIC LEDGER indorses the whole proposition and in future issues will give full publicity to the big undertaking, which means so much to Maysville and all interested.

Lawrence Helm of Ripley has been recommended for appointment from Ohio to the Annapolis Naval Academy.

Seven persons are dying and a score of others are seriously ill as the result of eating poisoned icecream at a Church function in Glenn, Ky., near South Portsmouth. The wholesale poisoning is thought to have resulted from the use of a rusty or unclean tin vessel in making the icecream.
